The program offered by NSISP is an excellent program. This is because the students were given many opportunities to improve their understanding and insight of the international community and to develop international citizenship through real-life experiences in the local community such as exchanges with Canadian students of the same generation, cultural experiences in Canada, and homestays. In addition, the dedicated support from the NSISP staff has made this program even more wonderful.

– Shingo, Chaperone (Japan)

From the very first day, I was welcomed with open arms. I learned a lot about Canadian culture by experiencing the school in Nova Scotia, activities and the real-life experiences and lifestyle my homestay family shared with me. It was an experience of cultural immersion and personal growth. This program exceeded all my expectations.
